## EXCITING CONTEST BETWEEN TWO RIVAL PIRE COMPANIES.

Many Other Attractions to Wind Up State Fair-Great Crowd on the Grounds Yesterday - Seventeen Thousand People in Attendance Symboleer Made a Great Run.

The largest crowd of the week visited the fair grounds resterday. It was esti-mated that nearly 17,000 people were in atendance including the children, who were largely represented.

The day was all that could be desired, the tmosphere being cool and the ground and cads nice, owing to the very slight shower about noon. The street car com-pany, it is said, hauled nearly 20,000 people both ways as against 17,500 the day before.

Nothing occurred to mar the pleasure of the day, but the failure of the baloon to go up and that, certainly, was a great disappointment to the many children whose hearts were jumping all day in anticipation of the great canon parachute jump. The failure was unavoidable, however, as the baloon caught fire during the process of the inflation and all the light air escaped.

It will go up today.

Everybody has been so well pleased with the fair that another crowd will be in attendance today. Many of the visitors have remained over to finish the week and jot it down in their memory as the most pleas-

ant week of the year. At Il o'clock this morning a hot contest will occur between the gentlemen road will occur between the gentlemen roadsters of Henry Schad and Dr. Minnick.
This will be of great local interest owing
to all that has been said about the two
roadsters by their owners. The exciting
feature of the day, however, will be the
race between the two rival hose companies
of the Wichita fire department. Both
teams will be brought up before the grand
stand fully equipped and manned with
the members of the respective
companies. They will be sent
off by a regular electric slarm and a
desperate race of a mile will be made, after
which a coupling will be made in front of
the grand stand. This will be a hot and
exciting race and doubtless will attract an

exciting race and doubtiess will attract an immense crowd of speciators.

The races yesterday were exciting and especially that participated in by W. E. Campbell's Symboleer, who made the time in 2:14 amidst great enthusiasm. The time would have been much less were it not for the condition of the track, which was very bad in some parts of it. The bailton also frightened the animal, but notwithstanding all these draw backs the race was a good one and entirely worthy of Symboleer. The other races of the day were as fol-

Cubitt and wife were among the visitors, and while making the descent Mr. Cubitt slipped on the stair-way leading from where the lock is located way leading from where the lock is located and fell to the landing, a distance of over eighteen feet. In his frantic efforts to save himself from the fall he caught his wife by the dress and carried her with him. Fortunately, Mrs. Cutitt did not fall forward, but slid the entire distance and only sustained several sever scratches. But Mr. Cubitt was not so fortunate, and falling on his head cut a deep gash over the right eye. He was knocked senseless and hud to be carried down by the janitors. John Moore, who conducts the merry go-round at the fair grounds, had an altergo-round at the fair grounds, had an altercation with a man, whose name could not
be learned, at 7 o'clock last night. The
report says that he seriously injured the
man, knocking him down and kicking him
in the face, cutting a gash over his right
eye which it is believed fractured the
skull. Moore was arrested by Charley
Barroughs, who is serving as policeman
on the grounds, and brought to the county
jail and turn dover to Sheriff Royse. It
is said that the injured man, who is said
to be a gardener, is in a very precarious
condition and his recovery is doubtful.
The man injured was taken away in a
burgy by his friends. The trouble arose
over a dispute about some change.

When Colonel Woodcock, who was colonel of the regiment of which Kuhn was a member, heard of the wonderful military achievements of Kuhn, his joy knew no bounds, and he immediately bought a box of cigars and passed them around to all the visitors at the court house. He remembered Kuhn well and sent him a letter of congratulation, in care of the commanding general, with instructions to send a complete history of the affair as seen by a Wichita boy. He expects an auswer at an early date.

After every trial the high position of Dr. Price's Baking Powder is better assured.

He looked the picture of dispair; the money was gone; his pocket had been picked. He reached in his other pocket for his own money but it was likewise missing. His wallet contained \$27, a railroad ticket and several notes. The pocketbook was found a short time afterward but it contained only the notes. Orin says the next time he goes in such a crowd he will let his wife carry the money.

## A HUDSON BAY POST.

It Is the Center of Life and Interest the Backwoods People. Life at a distant Hudson bay post, Nothing. far from a railway, may seem a very quiet and uninteresting one to dwellers in busy towns; but, quiet as it is, the particular post in the district is the center of all life and animation for all the white men, half-breeds and Indiana within a range of many miles. There they come to hear the news and bring the backwoods gossip. At any hour of the day one or two Indians or halfbreeds may be seen listlessly hanging about the store or shop smoking, but talking little. Perhaps they have come buy something, perhaps they want to sell some skins-or, very like-

ly, they are only loafing.
